HEAVY CASUALTY LIST

Promised the British People by Officials of the War Department.

TWO THOUSAND FELL AT SPION KOP.

General Buller Sends In a Partial List of the Officers Dropped. Fall of Ladysmith a Matter of Days.

London, Jan. 29.—The war office denies the report that Ladysmith has surrendered, and announces that a very heavy list of casualties is about to be issued.

London, Jan. 29.—General Buller wires from Spionkop, Jan. 29, that the casualties among the officers of the Fifth division and mounted brigade at Spionkop, Jan. 24, were: Killed 22, wounded 20, missing 6.

London, Jan. 29.—There is caustic comment in London on the discrepancy between the Boer account of the recapture of Spionkop and that sent by General Buller. The latter says not a word about the Boers scaling the hill and attacking the British trenches and capturing 150 men who had hoisted the white flag, as at Majuba Hill. Instead he spoke of the maintenance of the best traditions of the British army. There is not much doubt that the Boer account is correct. It is by no means boastful.

The military critics have given up hope of saving Ladysmith, which is undoubtedly short of food and ammunition. The garrison went on short rations Dec. 2.

The London Daily Mail says: "The richest and what was hitherto considered the most powerful nation in the world stands in the humiliating position of seeing its armies beaten back with heavy losses at the hands of two small states. Our ambassadors abroad suffer ignominy, knowing that Dr. Leyds has during the past week been received at semi-official entertainments, not only in Paris, but in Berlin. One would have thought that Dr. Leyds' reception by foreign governments was already sufficiently suggestive. One would have thought the time had come when some attempt should be made to mobilize the fleet and the remaining land forces, in order that the world may know that, while bearing our sufferings calmly, we have no intention of subsiding into a second or a third rate power by allowing foreign intervention of any kind."

As it required a month for Buller to recover from his earlier defeat at Colenso, it is not thought he can pull his disheartened army together now in time to do anything for Ladysmith. London waits anxiously for the Boers to move. They seem to be fighting on a very definite plan, and it is thought they may attack Buller or assault Ladysmith.

Parliament meets Tuesday and the Radical and Irish members are preparing for a savage onslaught upon the government.

The usual airy attempts to minimize the seriousness of the situation in South Africa are entirely lacking, and it is frankly acknowledged that the most serious effort of the present war has dismally failed. There is no sign of a wish on the part of the leaders of public opinion to disguise the ugly facts, but on the contrary, there is every disposition to face the full difficulties and describe the best way out. In short, the policy voiced everywhere is the gathering up of forces for more effective blows.

All hopes of the speedy relief of Ladysmith have been abandoned, and the consensus of expert opinion urges the immediate shifting of the theater of war from the rocky kopjes of Natal to the open veldt of the Free State.

Great anxiety has been removed by the announcement that Lord Dundonald's cavalry forces, which it was feared were isolated among the hills in the neighborhood of Acton Homes, are safe on the south bank of the Tugela river.

Buller's Retreat.

London, Jan. 29.—General Buller in a dispatch to the war department says his whole force has retreated south of the Tugela river. He says Spionkop was abandoned because of the inadequacy of the water supply and the fierce shelling of the Boers. The Boers say that the British lost 1,500 killed at Spionkop on Wednesday. About 150 English were made prisoners. During the night of Tuesday the British heavily entrenched themselves on the southern side of Spionkop, from which they were driven the following day by a series of magnificent charges by the Boers.

GAGE'S SECOND REPLY

To the Resolution of Inquiry Adopted by the Senate.

Washington, Jan. 29.—The secretary of the treasury transmitted to the senate his reply to the resolution of Jan. 23, calling for further information as to his dealings with the officials of the National City Bank of New York. Secretary Gage quotes in full the senate resolution, and adds that it might be considered as fully answered by his communication of Jan. 10, in reply to the senate's first resolution of inquiry of Jan. 3 on the same subject.

The secretary says he has had no communication or conversations with officials of the National City Bank of New York.

He adds: "As shown in the communication of Jan. 10, 1900, the National City bank did become the original recipient and distributor of public funds, and that as fast as certain other banks qualified it (the National City bank) transferred the funds to those institutions."

"I may add the sole purpose which has animated the secretary in these connections was so to use the bank as to secure, preserve and keep public moneys without risk or hazard, as would best conduce to the preservation and protection of the general interests of the people."

Bryan's Eastern Tour.

Washington, Jan. 29.—William J. Bryan spent a quiet Sunday in this city and left in the evening for Providence, via New York. Mr. Bryan's visit to Providence will be his second entry into New England. "I have been greatly pleased," he said, "at the interest manifested by Democrats of the east in what I have had to say upon the great issues before the people. There is every evidence of return of very many Democrats. I believe that as the real meaning of principle of the Chicago platform are better understood by the people of the east, not only will we regain the Democrats, but will make serious inroads in the ranks of the Republicans."

Saratoga Races.

New York, Jan. 29.—Seventeen stakes, to be run this season over the Saratoga track, are announced by the association entries, which close on March 1. Those provided for 3-year-olds and upward are the Beverwick handicap at a mile, the Citizens' and Merchants' handicap at one mile and a sixteenth, the Spencer handicap at one mile and an eighth, the Kearney handicap heat race, and the Saratoga steeplechase handicap.

Remains of Lawton and Logan.

San Francisco, Jan. 29.—A funeral train is being arranged by the Southern Pacific company to convey the remains of Major General Henry W. Lawton and Major John A. Logan, Jr., to the east. The bodies are on the transport Thomas, which is due from Manila. The body of General Lawton will be interred in Arlington cemetery. Major Logan is to be buried at Youngstown, O., the home of his wife.

Partition of China.

St. Petersburg, Jan. 29.—The newspapers here are paying considerable attention to the events of China. The Novosti expresses the opinion that the dynasty will last for a long time to come, but adds that China will never be restored to her former condition, and that the unavoidable work of partition will be accomplished peacefully, though perhaps in the distant future.

National League Circuit.

New York, Jan. 29.—For the purpose of hearing the report of the circuit committee of the National League of Professional Baseball clubs a special meeting will soon be called, to be held in this city. It is understood the committee has perfected all arrangements, with the exception, possibly, of a few minor details, for the reduction of the circuit of from 12 to 8 clubs.

Robbers Shot.

Cheyenne, Wyo., Jan. 29.—A report reached this city that a posse of Union Pacific detectives headed by Tom Horn had run down two of the Union Pacific train robbers in the Hole-in-the-Wall, and after a desperate fight, killed both of them. One of the pursuing party was shot, but it is thought not seriously.

Chinese Displeased.

Shanghai, Jan. 29.—The deposition of the Emperor Kwangsu creates dissatisfaction among the Chinese officials in the Yangtze valley and native mercantile circles are disturbed, fearing trouble. It is rumored the emperor will be reinstated in one year.

Cornell Students Injured.

Ithaca, N. Y., Jan. 29.—Seven or eight Cornell law students, members of Delta Chi fraternity, were hurt, as a result of the burning of their fraternity lodge. Fifteen jumped 30 feet to the ground. Little of the lodge property was saved.

SIGNS OF A DEADLOCK,

Though Miners and Operators Still Hope For a Compromise.

RADICALS MAY BE TURNED DOWN.

Joint Scale Committee So Far Has Agreed to Nothing—Cold Spell Causes Rejoicing on Both Sides.

Indianapolis, Jan. 29.—The deadlock between the miners and coal operators is as strong as it was at noon last Saturday, when the joint scale committee failed to come to any terms, and agreed to report back for further instructions. The committeemen say that the primary resolution for referring the two propositions submitted to the joint conference is to allow the radicals on both sides to have their say, then turn them down. It is claimed that a compromise can then be reached without so much haggling. The committee has agreed to nothing, and will simply test the strength of the opposing factions when the conference is again called.

The cold weather has made the operators happy. They declare that this weather is worth many thousands of dollars a day to the trade. One Chicago operator, who works mines in Indiana, declared that he is making between \$1,000 and \$1,500 a day out of this cold snap.

The miners on the other hand declare that cold weather is favorable to their cause, because the demands are increased and more men are employed, whereas, if it becomes necessary to order a strike to enforce wage demands, cold weather is of great assistance.

When the joint conference of operators and miners met the two propositions of last Saturday, and which caused the deadlock in the joint scale committee, were read. The operators' proposition is to establish the price of mining on the basis of 9 cents per ton advance on screen lump coal, making the price 75 cents per ton in the Hocking valley as the base, with a proportionate increase in inside day labor and dead work—all of which is equivalent to an advance of 13 36-100 per cent.

The miners rejected the offer in the committee and submitted a proposition resolving in favor of eight things—run of mine; flat differential of 7 cents between pick and hand mining; the abolition of day labor and work; 25 cents a day advance for day labor; 20 cents per ton increase for mining; base for run-of-mine coal in the Eleventh district 47½ cents per ton, and the same conditions to prevail throughout the Indiana block field. The operators' committee rejected the proposition, and the conference received the report with mingled cheers and jeers. The miners booed at the operators' proposition, while the operators laughed at the demands of the miners.

EMBARRASSES M'KINLEY.

Disposition of Insular Church Property Left to the Commission.

Washington, Jan. 29.—President McKinley has determined to leave to the new Philippines commission the question of the disposition of church property in the archipelago. The commission will consult with the principal officials relative to the action to be taken, and the status of the friars who remain in the islands will also be determined. At the same time the administration will have to decide what shall be done with church property in the island of Puerto Rico and the claims of the Catholic clergy, both there and in the Philippines, for the continuation of the support they received from the government of Spain, and which the clergy assert is guaranteed them by the treaty of Paris.

These questions are embarrassing to the administration, especially as they are raised on the eve of the presidential campaign, and there is no desire on the part of the officials to take any action which may be offensive to the Catholic voters of the country.

A Carlist Arsenal.

Madrid, Jan. 29.—The gendarmes unearthed a Carlist arsenal in a house in Palencia, capital of the province of that name, and seized 100,000 cartridges and a large quantity of arms. Six Carlists who were implicated, fled across the frontier.

Death of Major Brander.

Richmond, Va., Jan. 29.—Major Thomas A. Brander, past grand commander of the Virginia Grand Camp of Confederate Veterans, died here.

Anti-Trust Law Void.

Chicago, Jan. 29.—Judge Kohlsaat of the federal court rendered a decision declaring the Illinois anti-trust law unconstitutional.

STREETCAR RAN AWAY.

Two Persons Fatally Crushed and Several Injured on an Ohio Line.

Dayton, O., Jan. 29.—A runaway electric car on the Dayton and Xenia Traction road left the track at a sharp curve just east of the city, and was demolished. An unknown man was mashed into an unrecognizable mass; Hattie Kling, a young woman residing at Alpha, O., was instantly killed, her head being mashed; John Cox, the motorman, had his leg injured to such an extent that amputation may be necessitated. Several other passengers received injuries.

Deed of an Insane Father.

Cincinnati, Jan. 29.—In an "Over-the-Rhine" tenement Charley Bartruff, a tanner, murdered his wife, his son Carl, 5; his daughter, 3, and then tried to set the house on fire by overturning the hot stove and piling furniture on it. The skulls of all the victims were crushed with a blunt instrument. He remained in the burning room until arrested by the police. The man is demented.

New Incorporations.

Columbus, O., Jan. 29.—Salem Cemetery association, Salem; First Church of Christ, Scientist, of Springfield; Farmers' and Citizens' Bank company, Payne, \$25,000; Ultra-Standard Life Insurance company, Mansfield; Interstate Life Assurance company, Cincinnati; City Banking company, Kent, \$50,000.

McLean For Chairman.

Columbus, O., Jan. 29.—The Press Post, Democratic, editorially advocates John R. McLean as the successor of J. K. Jones, as chairman of the Democratic national committee. As the editor of the Press Post was the guest of McLean in Washington last week, this announcement is thought to be official.

Ohio Sugar Beet Factory.

Fremont, O., Jan. 29.—Work has been commenced in this city on what will be the first sugar beet factory in the state of Ohio. The plant is to be erected by the Continental Beet Sugar company of Cleveland, and will cost \$500,000. The new factory will have a capacity of 40 tons of sugar per day.

Ingalls to Retire.

Cincinnati, Jan. 29.—M. E. Ingalls, president of the Chesapeake and Ohio Railroad company, announced that on Feb. 1 next he will retire from that office, and that he will be succeeded by George W. Stevens, at present the general manager of the road.

Oblooms Placed.

Washington, Jan. 29.—The president sent the following nominations to the senate: Edwin N. Gunsaulus of Ohio, to be consul at Pernambuco, Brazil; Samuel H. Hurst, to be postmaster at Chillicothe, O.

Petition Refused.

Washington, Jan. 29.—In the United States supreme court the petitions for certiorari filed by the Toledo, St. Louis and Kansas City Railroad company versus the Continental Trust company, and of Dana A. Rose, also against the Continental Trust company (known as the Clover Leaf cases), were refused by the court in a decision announced by the chief justice. The cases involved the bonds of the railroad company and were decided in the court below favorably to the trust company.

Queen's Speech.

London, Jan. 29.—It has been learned that the queen's speech at the reassembling of parliament will be colorless. There will be a short reference to the war, chiefly confined to regrets at the terrible bloodshed and enormities of the men who have laid down their lives for their country. The whole proclamation indicates that there is not the slightest idea of giving up the war until Great Britain's ends are gained.

Leyds on Macrum.

Berlin, Jan. 29.—The Tageblatt says that Dr. Leyds, the diplomatic representative of the Transvaal, denies that he met Mr. Charles E. Macrum, the former United States consul at Pretoria, in Paris. He also reiterates his denial that Mr. Macrum is the bearer of a letter to President McKinley from the Transvaal government.

Too Many Absentees.

Frankfort, Ky., Jan. 29.—The house, which was to meet at 11 o'clock, did not meet until 11:30, because of the nonappearance of members. So many were absent and so many paired that no attempt was made to transact business and the house adjourned. The Gill-Brister contest committee will report Tuesday.

Washington, Jan. 29.—It is now considered as settled at the British embassy that Lord Pauncefoot will retire as ambassador of Great Britain to the United States April next.

RESENTED BY MASON.

British Consul at New Orleans Criticizes the Illinois Senator.

ANOTHER KINK IN THE LION'S TAIL.

Heroic Struggle of the Boers Stirrs the Hearts of the Staid Senators. Proceedings in the National Legislature.

Washington, Jan. 29.—After some routine business in the senate Mr. Pettigrew (S. D.) presented a resolution calling upon the president, if not incompatible with public interests, to inform the senate if the people of Samoa had been consulted with reference to the recent treaty regarding the Samoan islands. The resolution went over.

The senate then adopted an order presented by Mr. Allison (Ia.), deciding to proceed to the election of a secretary and sergeant-at-arms for the senate. Mr. Allison then, in succession, presented resolutions, first, that Charles C. Bennett of New York be elected secretary of the senate, and, second, that Daniel M. Randall of Indiana be elected sergeant-at-arms. After an agreement was reached that the officers were not to take their places until Feb. 1, the resolutions were adopted without division.

Mr. Mason (Ills.), rising to a question of personal privilege, had read an interview purporting to have been held with the British consul at New Orleans, in which the Illinois senator was criticized for his speech in sympathy with the Boers. Mr. Mason severely criticized the British government, not the people, saying that not one-tenth of the English people favored the present war in South Africa, and that 95 per cent of the people of this country sympathized with the Boers. He said that it was not the first time British diplomats had interfered in American politics, and he desired to have attention called to this matter now, before it could injure the present administration as it had injured Mr. Cleveland.

Mr. Lodge said he did not think the diplomatic or consular officers of any government had the right to criticize a senator or representative, or any officer of this government. He said the gallant fight the Boers were making stirred the heart of every man.

Mr. Mason criticized the foreign relations committee for taking no action upon the resolution of sympathy. He then resumed his criticism of England. He said England had made the war for the purpose of getting the rich mines of South Africa.

Mr. Platt (R., Conn.) said at the close of Mr. Mason's speech that he wished to enter his protest against the abuse of free speech on the floor of the senate.

Mr. Pettigrew, speaking on a resolution relating to contraband of war, said that the doctrine that a belligerent might seize food stuffs, even if it paid for them, would mean that in case of war between our two best customers, our trade with both would be destroyed.

Mr. Tillman then took the floor and made a speech on the Philippine question. It was a vigorous denunciation of the administration's policy. He denied that the blood of the soldiers in the Philippines was upon the heads of those who opposed imperialism. "The president of the United States, by negotiating the treaty of peace and buying the Philippines, and those senators who assisted in ratification of the treaty," he said, "are responsible for the present war." Mr. Tillman said that the United States can not govern any territory that does not belong to the United States, and where our flag floats the constitution and the principles of the Declaration of Independence must be in force.

In the House.

Washington, Jan. 29.—A bill was passed to appropriate \$60,000 for military hospital at Fort Leavenworth, Kan. A bill was passed requiring officers and pilots of steam vessels to make oath to their application for licenses, and providing penalties for perjury. The house then began consideration of the bill to reorganize and improve the United States weather bureau. The Sulzer resolution for the appointment of a special committee to inspect the deposit of public funds by Secretary Gage in New York banks was referred to the ways and means committee.

New York, Jan. 29.—The Depew Opera House in Peekskill, owned by United States Senator Chauncey M. Depew, was destroyed by fire. The loss is estimated at \$75,000.

WEATHER FORECAST FOR KENTUCKY—Fair and warmer to-day; Wednesday partly cloudy and colder, southerly winds.

The New York Mail and Express, a Republican journal, thinks Governor Taylor should have ordered out the State militia to disperse that gang of mountain Republicans who swooped down on Frankfort last week. The Mail and Express is probably ignorant of the fact that the "mob" were welcomed with open arms by Republican State officials. It says Taylor's duty is "plain and imperative."

It has just been discovered that the Government is having its flags made in New York sweat shops by poverty-stricken foreigners who are paid less than 50 cents a day for twelve hours' work. The fact came out, says the Elizabethtown News, through the medium of a strike of some of the illpaid employers of a Washington concern, who were paid only 27 cents for sewing the forty-five stars into the union blue of the flag of freedom. At this rate the expert workers, who finish only three flags a day, earned only 80 cents for a day's work. They were coolly informed that the same work was being done under contract for the Army and Navy departments in New York sweat shops for one-half that price, and they could take it or leave. They left, and their places were immediately filled from a horde of applicants who, in these days of flush trust prosperity, struggled for an opportunity to earn, as unskilled workers, less than 50 cents a day apiece. This is one of McKinley's contracts, and the favored Republican contractor has paid his political contribution from the sweat and blood of his flag-making serfs to enable Mark Hanna to rally his cohorts "round the flag" in support of the administration.

COTTON MILLS

In the South Are Chiefly Owned By Their Home Capitalists—Why Not Tobacco Factories?

(Baltimore Sun)

The Age of Steel affirms that the mills and spindles of the Southern cotton industry are capitalized at not less than \$125,000,000. The New York Journal of Commerce finds that \$33,000,000 was invested in spinning and weaving mills in the South last year. Most of the mills are owned at home—a wholesome feature and one that promises them exemption perhaps for a time from restrictive legislation. Railroadings is too unprofitable in the South for the average citizen to put his money into railroad stocks and bonds, with the result that the ownership of railroads has gone largely to the great centers of capital; but mill profits ranging as high as 40 per cent, a year tempt the local capitalist to invest. "Northern corporations," says the Journal, "have built several mills in the South, but it has from the first been the boast of Southern people that much of the greater part of the cotton mills were owned at home. This investment of local capital, therefore, indicates marked progress in the accumulation of wealth, and the profits from these investments increase the incomes of a very large number of Southern families."

The multiplication of mills, furnaces and other manufacturing plants in the South means a large development of commercial life—more merchants, agents, banks, clerks, &c. A new class is being created, in addition to the agricultural class, whose conservative influence upon public opinion and politics must tend to modify the ideas of the agriculturists. A one-sided interest tends to one-sided opinions. But an atmosphere of industry, trade, banking and commerce will insensibly alter the tone of political oratory. The disposition of the agriculturist to deem the merchant and banker his natural enemies may not wholly disappear, but it will be lessened when these citizens live next door and are seen to be not much worse than others. In this view the 5,000,000 spindles now running in the South and the mining of 40,000,000 tons of coal signify a quiet revolution tending to better knowledge and harmony.

MR. JOHN L. SHUFF, who married Miss Thompson of this county, is mentioned by the Enquirer as the champion life insurance solicitor of Cincinnati. He wrote a policy for \$100,000 last Saturday.

THE L. AND N. MAIL SERVICE.

Postmaster Mathews Has Succeeded in Securing a Vast Improvement Over the Old System.

Most of the people of Maysville and vicinity are, of course, by this time aware that the system of the mail service on the L. and N., as regards the Maysville and Paris branch, has lately undergone quite a radical change. There may be some facts, however, which are not generally known.

The regular mail train with mail car attached, which formerly arrived in this city at 8:30 p. m. and departed at 5:45 a. m., is now what is commonly known as the morning train, arriving at 9:45 a. m. and departing at 1:15 p. m. The fact which covers the whole of this part of the change is that the mail car has been transferred from what are known as trains No. 9 and 12 to trains No. 10 and 11, these being the numbers of the above described trains arriving and departing as stated. The only difference is that the mail car now runs through to Richmond instead of stopping at Paris as formerly. Prompt and ample connections, however, are made at Paris for all points on the "main line" between Lexington and Cincinnati.

Inquiries at the postoffice indicate that the main point of interest with the public is just what mail now arrives by the night train, No. 12, and what goes out on the morning train, No. 9. In order to impart this information the following statement was recently published as obtained from the postoffice: Direct pouches are made up and dispatched every morning, except Sunday, from the Maysville office to North Fork, Helena, Flemingsburg, Poplar Plains, Hillsboro, Nepton, Ewing, Cowan, Pleasant Valley, Myers, Carlisle, Millersburg, Paris and Lexington. From all of these points exchange pouches are received by night train except Poplar Plains and Hillsboro, and not from these because no connection can be made with them over the narrow gauge road, which is their mail outlet. A movement is on foot, however, to devise some means of getting an evening mail from these two offices, something that has never been done. A pouch is also made up and sent by morning train to connect at Paris with mail train from Lexington to Cincinnati so that any point on that line can be as readily reached as ever.

Postmaster Mathews is very desirous that it should be understood, that in the pouches mentioned above is included not only mail for the offices named but also for all offices supplied by them, so that, with few exceptions, any office in Fleming and Nicholas counties can be reached.

In addition, those offices on the direct line of railroad with which Maysville has no pouch exchange have been instructed to dispatch mail for Maysville via Maysville and Richmond train leaving here at 1:15 p. m., connecting at Paris for Cincinnati and at the latter place with the C. and O. train No. 4, arriving in Maysville at 10:46 p. m. and he in everybody's hands by 8 a. m. the following morning. The postal authorities in charge, of this division are in thorough accord with the idea of eventually having a regular mail service on night and morning trains and the approval of and proper allowances by the general Government are all that are needed. These will be forthcoming in due course of time, but in the meantime it will be seen that we have one complete, and another nearly so, mail service along this line of road.

For the Farmer.

Jacob Messerschmitt, who lives on the Sallee farm near Fern Leaf, raised 16,865 pounds of tobacco last season on twelve acres and sold it at 8½ cents. It was delivered last week to Mr. Gollenstein of Washington.

Anderson & Spillman, the Danville millers, have bought from different parties in Boyle over a thousand acres of the growing wheat crop at 60 cents per bushel. Many Boyle farmers, however, refuse to accept this price so far in advance of the harvest.

WANT GAME PROTECTED.

Efforts Being Made to Secure Passage of Stringent Laws in Ohio.

(Cincinnati Post.)

John H. Mackie, of the Cincinnati Gun Club, is in Columbus, fighting some of the measures of the game-law reformers. Seven new bills are before the house. The Sherman Gun Club of Columbus has taken a hand in the matter, and officially suggested these amendments to existing laws:

1. That no quail shall be killed, except between Nov. 10th and Dec. 1st; that not over twenty quail shall be killed in one day by one man.
2. That a license fee of \$1 shall be charged for every resident hunter, and that a license fee of \$25 shall be charged for every non-resident hunter, such fund to provide for the better enforcement of the game laws.
3. That rabbits may not be killed with a gun except between Nov. 10th and Dec. 1st, but that they may be trapped, hunted and killed with dogs and ferrets at any time.
4. That doves, squirrels and woodcock shall not be hunted except between July 4th and Sept. 15th.

That license fee would add \$20,000 at least to the State revenues. One bill prohibits the hunting of quail with dog.

THE Sol Smith Russell Company in "A Poor Relation" was greeted by a magnificent audience at the opera house last night. This play is one of the cleanest and most elevating ever witnessed in Maysville, and the performance provided a rich treat to our theater-goers. Frank J. Keenan, who has been playing the leading role in this piece only a short time, delighted all with his fine appreciation and splendid rendition of the character. At the close of the second act he had to respond to the enthusiastic applause. Many pronounced him the equal of Mr. Russell. Without a single exception his support was all that any star could ask. May Mr. Keenan and his company come again.

Dickinson Hopes to Close a Deal For the Building of the Black Diamond Railway.

KNOXVILLE, TENN., Jan. 27.—The survey of the Ohio, Tennessee and Carolina railroad has been completed, and Engineer W. B. Crenshaw sent data to T. C. Dickson, at Washington, to-day. This proposed road is better known as the "Black Diamond," but was recently chartered under the above name. It is the Boone scheme to build a road from Columbus, O., to Port Royal, S. C.

T. C. Dickinson, the financial agent of the enterprise, sales Wednesday for England to close, it is claimed, a deal which has been pending for some time, by which sufficient funds will be secured to build the road. It is claimed by representatives of the enterprise here that the deal will be completed within fifteen days after Dickinson lands.

WEDDING DECLARED OFF.

The Marriage of Mr. John W. Bramel and Miss Eva Robinson Will Not Take Place.

Some days ago the BULLETIN announced that Mr. John W. Bramel, of the county, and Miss Eva Robinson, of this city, would be married this afternoon.

That announcement was all right, but subsequent developments necessitate another announcement, and this is, the marriage will not take place.

From what has been learned, it seems there were objections on the part of some of Mr. Bramel's relatives to the match. His seventeen-year-old daughter by his first marriage is said to have strongly opposed the wedding. This, it appears, set the prospective groom to thinking.

To be brief, he was finally convinced that to go ahead and keep his promise meant a life of unhappiness for himself and Miss Robinson and he frankly acquainted her with his decision and asked to be released from his promise.

This was on last Friday. He was ready to make any reparation in his power. Miss Robinson placed her case in the hands of lawyers. Mr. Bramel called in the services of a confidential friend, who met the attorneys on Saturday, and a settlement satisfactory to all parties was finally agreed upon.

Mr. Bramel is one of the county's wealthy farmers, is about forty-five years old and has been married twice, his first wife being a Miss Dickson and his second a Miss Warden, both of Orangeburg. Miss Robinson is an estimable young lady who came to Maysville from Adams Co., O., a few years ago. During the past year or so she has been one of the leading salesladies at the Bee Hive.

WELL LOCATED

For Tobacco Manufacturing Enterprises is Maysville.

This Section Unsurpassed For White Burley—A Handsome Send Off From a Recent Visitor.

[Western Tobacco Journal.]

Maysville, in her initiatory tobacco fair held Saturday, January 20th, has fully proven her ability to make a success of what her enterprising and energetic citizens undertake. She has demonstrated the fact that her surrounding country can not be surpassed in the quality and production of white burley tobacco. The county of Mason in Kentucky is among the pioneers of that type of tobacco, and within a radius of the five counties that compose the Mason County district there is close to 15,000,000 pounds of tobacco produced yearly.

Maysville is well located from a business standpoint for tobacco manufacturing or other interests. Her citizens invite capitalists to investigate, who are looking for a good location and other advantages. They have a population of 10,000 people, city taxes \$1.25, and rail and water transportation. They also offer cheap locations and taxes free for five years to manufacturers locating there.

Notwithstanding an all day rain the tobacco fair proved that it is productive of several good features, one of which is the bringing together of the tobacco growers and the warehousemen, brokers, speculators and the resident buyers of leaf tobacco in the auction markets for the large tobacco manufacturers.

It has been said that "one touch of nature makes us all kins," so it is in holding tobacco fairs, for it brings together the various elements of the tobacco trade, who have an opportunity to get in close touch with the producers, and when they are on the auction market they all feel that a closer bond has been welded after an occasional social and business gathering.

In looking over the large audience of the farming community assembled in the opera house their personnel in intelligence, and as a representative body, was one they could be proud of. The honored guests on the stage added luster to the gathering.

When it comes to fun and frolic, intermingled with business, there is no class of business men that have more of it than the tobacco trade, as we believe their calling, which brings them together almost daily on the auction sales, is productive of a fellow feeling.

While to Mr. John Duly, President of the Board of Trade, with the liberal work of the Maysville Ledger and BULLETIN, is due the success of the fair, they were ably and liberally supported by the citizens of Maysville.

Itchiness of the Skin and Eczema.

The only remedy in the world that will at once stop itchiness of the skin on any part of the body that is absolutely safe and never failing, is Doan's Ointment. Free samples at J. J. Wood & Son's, February 2nd.

FANNED BY A GALE.

New York Firemen Successfully Fight a Stubborn Conflagration.

New York, Jan. 29.—The 7-story building in Cherry street, occupied by the Heywood Brothers and Wakefield Manufacturing company as a chair factory, was destroyed by fire during the prevalence of a fierce gale, which made the work of the firemen extremely difficult. When the fire broke out there were about 150 men at work in the building, but all escaped without injury.

The bursting of a tank on the roof of the building, which precipitated 10,000 gallons of water upon the fire raging beneath it, generated so much steam that the walls burst out. Part of the east wall fell upon the Gerrish warehouse and carried three firemen with them. For a time it was feared the men were lost, but they were extricated without having sustained serious injury.

The loss on the building and its contents, which were completely destroyed, is estimated at \$300,000.

"I feel as if I should fly to pieces." How often those words are on a woman's lips. They express to the uttermost the nerve racked condition of the body, which makes life a daily martyrdom. It this condition had come suddenly it would have been unbearable. But the transition was gradual. A little more strain each day on the nerves. A little more drain each day of the vitality. Any woman would be glad to be rid of such a condition. Every woman tries to be rid of it. Thousands of such women have been cured by Dr. Pierce's treatment with his "Favorite Prescription" when local doctors had entirely failed to cure.

"Favorite Prescription" contains no opium, cocaine or other narcotic.

Holden, Mo., Jan. 29.—John Jackson, a detective for the Missouri, Kansas and Texas railway from Sedalia, was shot through the head near here, and mortally wounded by a gang of men suspected of plotting to rob a train of the Missouri Pacific railway. Superintendent Hardy learned that an attempt would be made to rob the express car on the eastbound Missouri Pacific train. A posse was organized. Superintendent Hardy's information was that the hold-up was to take place near Doran, a small station near Holden. They attempted to arrest the gang, who opened fire and made their escape. One of the robbers was wounded and captured.

Where Tigers Fear Men.

A cheerful place is Sorapongee, in India. The rainfall there often is as great in one afternoon in the rainy season as it is in New York state in a whole year, and tigers and leopards are as plentiful as dogs are on New York's east side. On account of the tremendous dampness the cattle have to be driven to the top of the hills, so that they shall not get their feet too wet, and the tigers and leopards climb to these high altitudes also, because they are imbued with the kindly desire to save those cattle from pneumonia and other ills by eating them carefully and with due enjoyment.

As there are no forests on the hills the tigers prowls about all night in the open, lying concealed during the day in the limestone caves, the coal pits and between the crevices of the rocks. The residents come upon them in all manner of odd nooks and corners so unexpectedly that the beasts are as much alarmed as themselves and usually scamper off in one direction, their disturbers flying in the opposite one. No one stirs out at nighttime without a powerful lantern or torch, for, as a rule, wild beasts will not come near a light, though this rule does not hold good in all cases.—New York Herald.

FREE! FREE!

TO KIDNEY SUFFERERS.

An Opportunity Worthy of Your Notice.

If you suffer with kidney disease or any ailment arising from an improper action of the kidneys or other urinary organs, this offer we make to the people of Maysville should interest you. In the advancement of medical science, the kidneys, being almost the organs of the greatest importance to human health, have not been neglected, and in placing before you such a cure as Doan's Kidney Pills, the proprietors recognize how far so many statements of the makers of similar preparations have fallen short of their claims, being convinced that no remedy for kidney complaints in existence equals Doan's Kidney Pills for such ailments; strengthened in these convictions by letters that are daily received of the work they are doing for mankind's benefit, old backs and young backs are being constantly freed from never-ceasing aches, and many a lame and shattered one, stooped and contracted, is strengthened, invigorated and infused with new life. With such a medicine, an offer of this kind can be made without hesitancy, for while we lose the box we give to you, we make a friend that assists us in the sale of many others.

ONE FULL BOX

of Doan's Kidney Pills will be given away free to every person suffering with kidney ailments at the undersigned address. First come, first served, and only this one chance offered. Remember this is not a sample box, but a regular size box of Doan's Kidney Pills, which retails at 50 cents. For those in the country who can not call in time, a full box will be mailed on receipt of five cents in either coin or stamps, to defray expense of postage and mailing, in response to all letters received up to and including February 3rd. Remember, Free distribution one day only.

The Latest Information!

CONCERNING THE IRON TRADE

Is that prices continue to advance on everything in the hardware line, and farmers will have to pay much more for their Wire Field Fence this Spring than they did a year ago—excepting those who take advantage of our liberal offer. Last Fall, anticipating the advance, we placed a big order with the manufacturers of

The American Woven Wire Field Fence,

and offered to sell at the old figures as long as the invoice lasted. Having bought so largely, and it being late in the season, we disposed of only about half our purchase, but we expect the balance to go quickly after our farmer friends read the good news that we have decided to sell what remains at a figure probably below what the Fence could be bought for to-day in car-load lots. If you intend buying any field Fence this Spring, here's your opportunity to effect a considerable saving by buying now. More of the American Woven Wire Fences were sold last year than all other woven wire fencing combined, and for beauty and durability it has no equal. Every rod is guaranteed. Come in and see us about it.
